Natur-Al® CONSERVATORIES

A MEMBER
OF THE
FEDERATION
OF
MASTER
BUILDERS

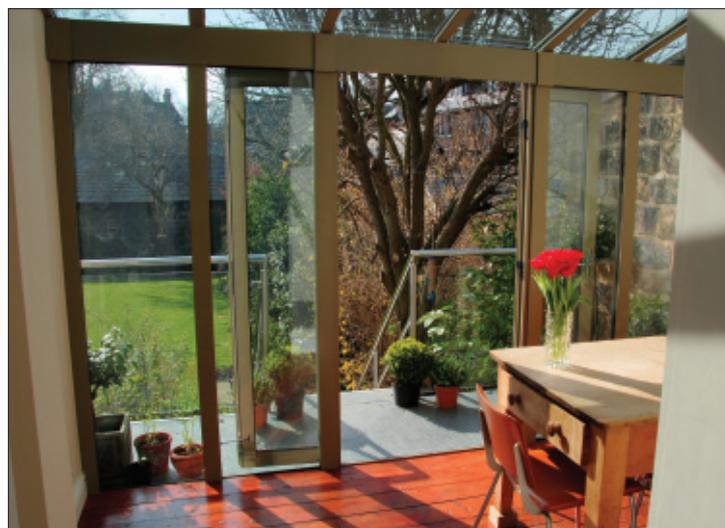

Refurbishment (and New) Conservatories

A Natur-al conservatory will avoid the appearance of plastic conservatories and the maintenance cost of wood conservatories

At the same time the patented engineered natural conservatory is strong enough to support glass and even slate roofs!

A FEW POINTS ABOUT OUR PRODUCT

- 1) **Our conservatories are**
 - a) Individually designed to fit the location and compliment your home
 - b) THE STRONGEST structural aluminium space frame with stainless steel fittings, not just plastic window frames fastened together
 - c) Fastened well down into the masonry with stainless steel fittings and not just nailed or screwed to the top brick
- 2) **The exteriors**
 - a) Available in a choice of 1700 colours
 - b) Permanent powder-coated aluminium unlike wood that need expensive repainting every few years
 - c) Aluminium does not rot or decay like hardwoods can
- 3) **The interiors**
 - a) Usually wood panelled in Tulip wood
 - b) Painted to customer taste
 - c) We offer the Farrow and Ball colour range for the interior
